About us

- TKMIND is a **UK based company** with current operations in KSA, UAE, Egypt & Singapore. TKMIND is a market-leading ICT solutions and services company serving wide range of portfolio and technologies.
- With years of experience and expertise in IT and Telecommunication services, TKMIND offers a broad portfolio of licensed and cloud-based products and solutions that help clients compete more effectively, improve business operations and deliver a more impactful customer experience across a variety of touch points.
- We offer our clients a range of market-leading Digital solutions and products along side Consultancy Services, Analytics and Artificial Intelligence offering.

What we Envision..

Vision

Our vision is to provide our customers with best-in-class flexible, seamless, information and ICT services for everyone.

Mission

Our mission is to help organizations thrive in the highly dynamic, challenging and complex market conditions.

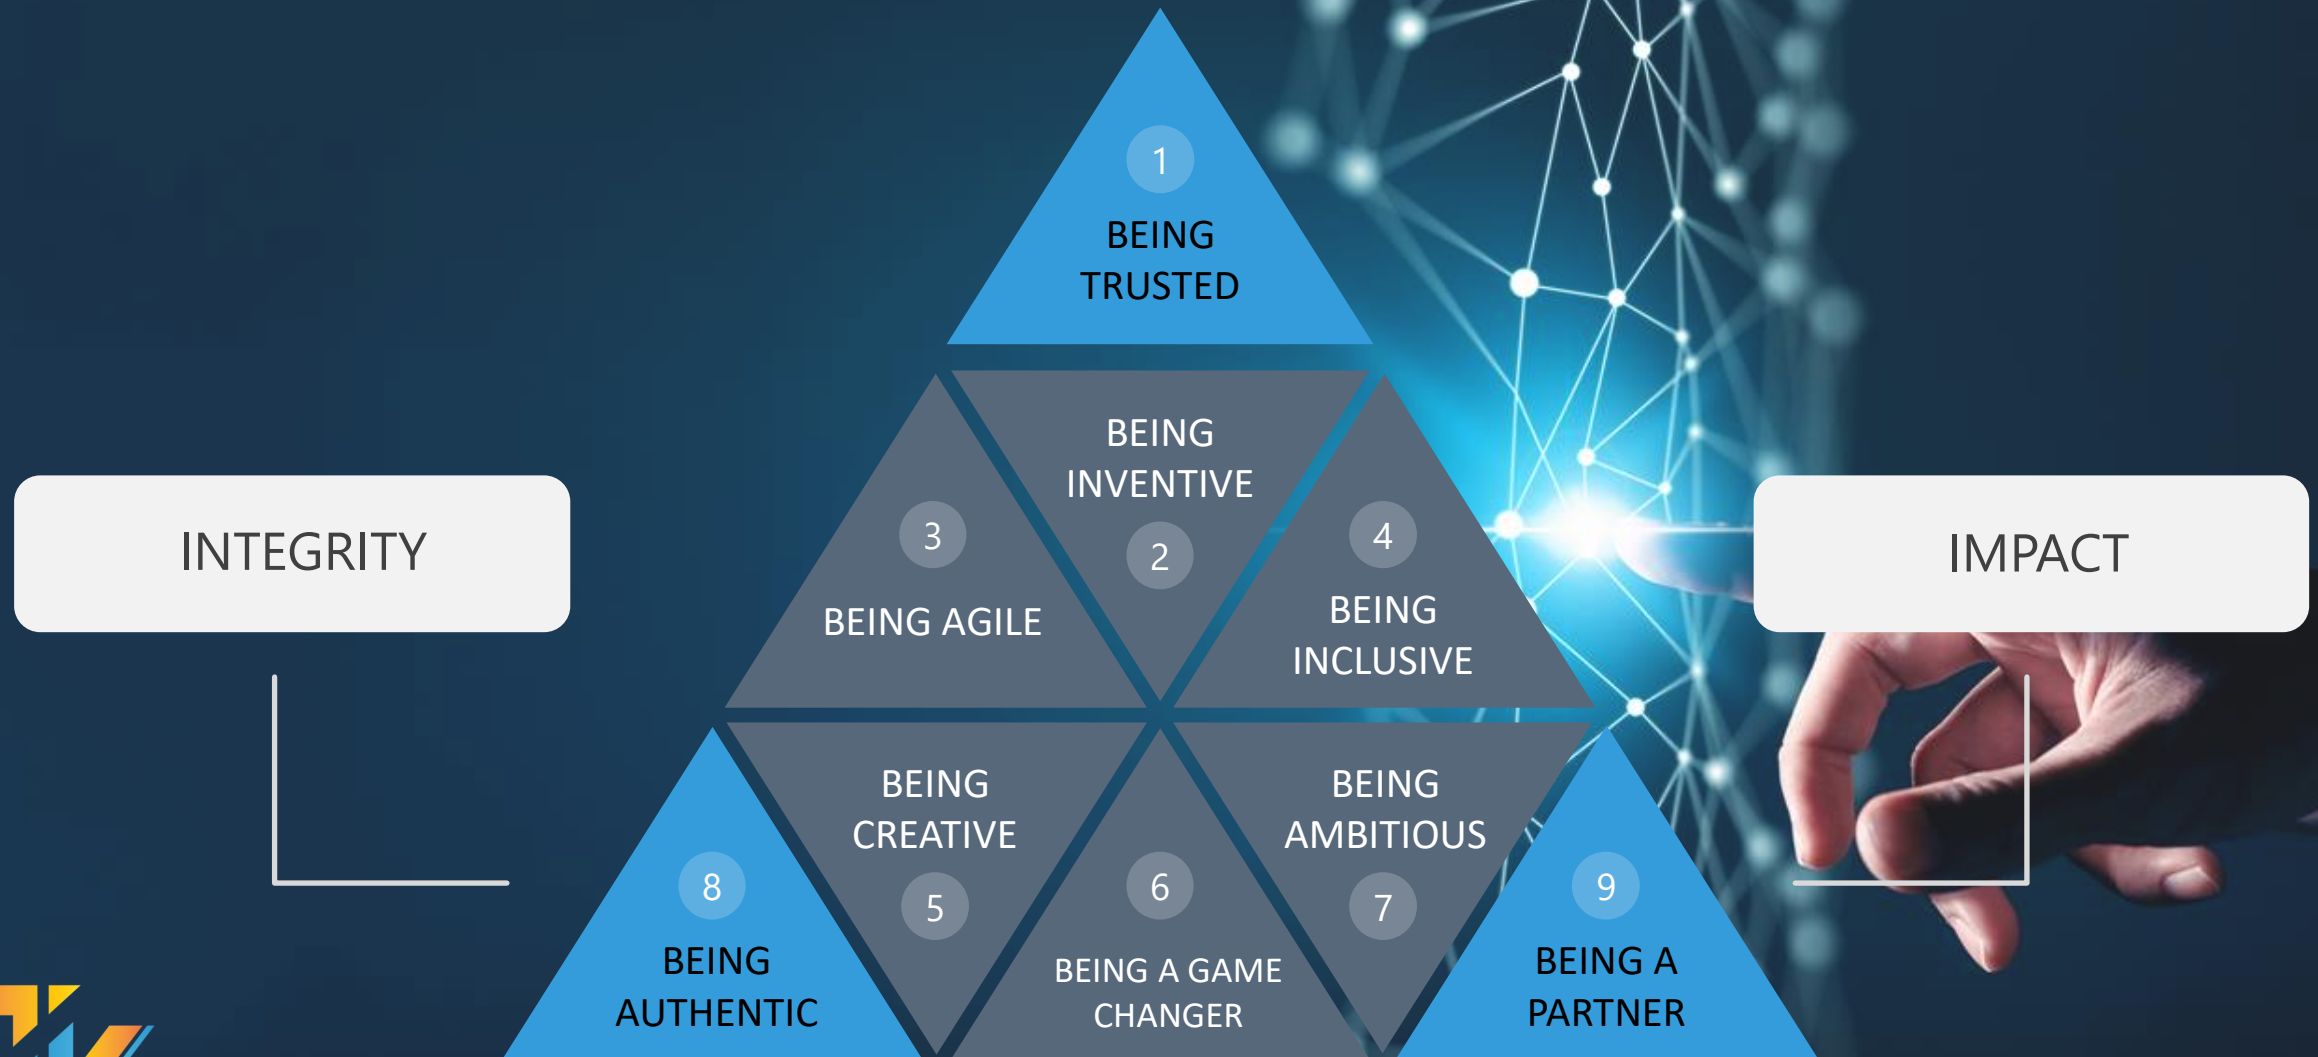

TKMIND is looking forward to optimize, monetize and revolutionize within and beyond the era of the Digital Transformation.

We help our customers thrive by helping you:

- ❑ Reduce OPEX and CAPEX through optimization operating, so you can re-deploy operating capital to support business growth and transformation.
- ❑ Enhance your time-to-market through agility and automation.
- ❑ Enable new revenue streams through the monetization of services, across different locations and channels, so you can bring new services to market quickly.
- ❑ Improve service delivery to drive higher customer satisfaction and increase retention.
- ❑ Leverage data and insights to better know your customers, understand them and deliver exceptional experiences.
